Paris.JS #4 23.02.2011
@sylvinus

node?

- Server-side JavaScript
- Not new, but newly cool
- “Why?” : let’s debate in 5 minutes :)

WHY

SO

ASYNCHRONOUS?

Joyent

- VC-funded IaaS Bay Area company
- Ryan Dahl on payroll
- Made nodejs an official project

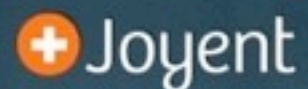

What happens when an
IaaS company meets a
badass framework ?

yes, if it's not there right away, it's easy enough to build it.

no.de is getting it's big refresh starting on the 23rd (new analytics etc) so it should also be at 0.4.x in the next couple of days

Thanks!
